Schengen Castle (A)

The first mention of a castle in Schengen dates back to 1350, when it changed owners several times and work was carried out to modify its architecture over the centuries to bring it up to the present day. The ivy-filled tower is the only witness to the castle's medieval history. In 1939 Collart Castle became the property of the Sisters of St. Elizabeth who made it a rest home for the congregation.

The castle is not open to the public.
