Roman road (C)

This section of road, which is curved and paved with shale and sandstone, is about 100 metres long and 4 metres wide and is known in the collective memory as the "Roman road". It is said to have linked Nantes to Corseul. However, no element has been found to certify its Roman rather than medieval origin.

Church of Guémené Penfao (D)

The first church in Guémené Penfao was badly damaged by a fire during the Revolution in a fight between Royalists and Revolutionaries. It was only very late (1841) and partially restored. The increase in population led to the construction of a new church in 1879. The first stone was laid on 21 September 1884 and the first mass was celebrated on 4 July 1886. The large dimensions of the building imposed an atypical Nor-South orientation to adapt to the terrain. The originally planned 60m bell tower was never built.

In front of the church, there is a statue and a stele recalling the situation of Guémené 1600km from Santiago de Compostela.
